

Certificate

SAP INTEGRATION CERTIFICATION

SAP SE hereby confirms that the extension

KIT 1.0

of the company **Keytree Ltd** has been certified for integration with **Hybris Commerce 6.4** via the SAP integration scenario **HYBRIS-EXT 6.0**.

This certificate confirms the existence of product features in accordance with SAP certification procedures. SAP only certifies successful integration of the product with SAP solutions. Vendor is responsible for the product itself and its error-free operation.

The certification test is documented in report no. 11489 and expires **April 25, 2021**.

This test has been performed by deploying the vendor product called KIT 1.0 on the Hybris Commerce platform.

Application server: Apache Tomcat 7
Database: MySQL 5.7

This configuration meets the requirements for running KIT 1.0 on Hybris Commerce 6.4.

Certified Functions:

- Start hybris server
- Execute functional steps
- Logging & Error handling

Montreal, April 25, 2018.
